

these reports have been used in various DAU-DSMC courses, assisted numerous program offices with current issues, and assisted both government and industry to initiate change within their organizations. These reports bring to light the quality of research that directly supports the needs of the acquisition community.

Topics are selected each year by the Director of Research, based on the forecast needs of the acquisition community for the next year. The Services select their

nominees based on the selected topic area. This allows the Services to nominate officers with both a level of expertise and high interest in the topic, which further enhances the program for DAU and the Services.

Beginning in 1994, published Fellows Reports became available online at http://www.dsmc.dsm.mil/research_main.htm or from the Strategic Planning Action Group Research Department at (703) 805-5406. Prior reports are available in very limited quantities. Copies

are also available for checkout in Acker Library at the DAU Fort Belvoir campus. A list of the report titles follows.

- *Transatlantic Armaments Cooperation* – 2000
- *Program Management 2000: Know the Way* – 1999
